

## A STUBTON VILLAGE BENCH

Due to lack of funding/grants and the high cost of a village sign, the Parish Council is exploring a more affordable, Stubton related, bench seat.

The bench designs are just to give an idea of how design elements can be put together to tell a story.

The Parish Council would like to incorporate design recommendations from residents, choosing images which tell the story of Stubton.

Please let us know of any items/objects you'd like to see incorporated in a bespoke bench design.

Wheat/agriculture, Heron, Lincolnshire Imp, fleur-de-lys, cedar branches (the tree in Stubton Hall grounds), the Church, wildlife, Doomsday Book, Lincs RAF... or something else entirely, let us know.

Please email the clerk with your suggestions: [stubtonclerk@gmail.com](mailto:stubtonclerk@gmail.com) or come along to the next **Parish Council Meeting on 9<sup>th</sup> June**, where we can start to put some ideas together for a mock-up design.

Below is a rough mock-up produced for the concept of a village sign. It gives an idea of how a village story can be told through incorporating objects related to Stubton. A rectangular design for a seat back will provide more space for other images.
